# 1. What Previous Candidates Say

It's a unique opportunity and experience. It's a shame the time goes by so much more quickly than you initially expect

It was just amazing! So much better than I even thought!

Since this was a purely positive experience to me, I can only recommend studying abroad to everybody

I had so many beautiful and unforgettable moments during my Erasmus time

You can use your time abroad to get to know yourself better, to experiment and to meet people from all over the world

This has been the trip of my life. I studied new things, visited new places, made new friends, and learnt some new slang!

You only get one chance to meet people from so many different cultures

## 5. Application & Accreditation

### **Motivational Letter** (1-2 pages long)

The motivational letter is the most significant part of your application for us. Therefore, take your time to tell us why you should be nominated for the university of your choice.

Some aspects to consider:

- Provide a proper address
- It should be an academic motivational letter, thus, focusing on your academic motivations
- Tell us, why this particular university is your first choice and what would you like to accomplish
- What aspects interest you most (also beyond English studies)
- Bring your own personality into the letter: how will you benefit from the experience and how can you contribute to the programme
- Add any further information you think might be relevant and interesting

We will read the motivational letter anonymised to ensure a fair nomination!

**AUSLANDSAUFENTHALTE / SPENDING TIME ABROAD**

We expect students of English Studies to be highly motivated to spend time in an English-speaking country, and have put together information on these pages to help you find the most suitable way for you to spend time abroad. You will also find a lot of useful and interesting information about various ways you can spend time abroad on the web-pages of the International Office.

**STUDY ABROAD**

Are you looking for an interesting, worthwhile way of spending time abroad? Would you like to go to university in another country? Then you should consider applying for a study abroad exchange with one of the Department of English Studies' exchange programmes. This may be part of the Erasmus+ programme or a separate exchange within or beyond Europe. Whether you are studying English as your major or minor subject, or as part of your BEd/MEd degree, you're welcome to apply for any of these exchanges.

The benefits of participating in an exchange program are definitely worth it, particularly for language students! You'll get to know what it's like to be a student in another country and learn what the differences are to studying in Germany. This will help you broaden your horizons and gain a new perspective on things, within and beyond your degree subject. You will meet new people from all around the world, learn/improve your foreign language skills and see interesting, new places. Take the first step to becoming a new, more self-reliant person.

Erasmus+ & Study Abroad in Europe

Exchanges outside Europe

**ERASMUS+ Partner Universities**

Note that, despite Brexit, universities in the UK can continue to participate in the Erasmus+ programme until May 2023. However, you will need a passport to enter the UK, and a "student visa" if you stay there for longer than 6 months. You can check the visa information here: <https://www.gov.uk/check-uk-visa> For the time after summer 2023, we aim to create separate agreements with our UK partner universities that offer you comparable conditions to Erasmus+ exchanges (e.g. no tuition fees!); the difference is that your stipend would then come from a different programme (DAAD Promos).

The information booklet below will give you more thorough information on which universities are available for an Erasmus+ exchange through the Department of English Studies, the information you should consider before you apply, and how the application process works. If you have further questions you are welcome to contact the departmental Erasmus+/European Exchange Coordinator, Mrs C Maas ([cmmaas@uni-trier.de](mailto:cmmaas@uni-trier.de)), her assistant, Magda Miksch ([s2mamiks@uni-trier.de](mailto:s2mamiks@uni-trier.de)), or the departmental study advisor, Dr B Kraft ([kraftb@uni-trier.de](mailto:kraftb@uni-trier.de)).
