

CLASS INFORMATION MASTER'S LEVEL

The following is a summarised list of classes that are open to incoming exchange students enrolled in English Studies at the postgraduate level.

Note that these Master's-level classes all require advanced competence in English - at least C1+ level on the CEFR - as well as previous knowledge/expertise from a Bachelor's degree in English Studies. You may be asked to provide evidence of your language competence before registering for these classes.

The list shows the generic titles of classes which we offer. Each semester, parallel groups of each class focus on different specific topics. You can find the titles and topics of the parallel groups in the course catalogue at porta.uni-trier.de. The groups each meet for one 90-minute lesson per week.

If you are required to prepare a Learning Agreement before the specific titles of parallel groups in a certain semester have been published, please use the generic titles below. Your LA can be updated later.

The exact number of ECTS credits awarded for a class will depend on the workload and assessment. Where varying numbers of credits are possible, students should negotiate with the lecturer at the start of the teaching term. For your LA, simply list the number of ECTS you would like to aim for.

Students should use the online platform PORTA to register for classes if possible. Alternatively, contact the individual instructors of parallel groups about registering for classes. Please include in your email: your full name, Trier University student number (if you have it), the title and day/time of the group you wish to join.

ENGLISH LANGUAGE TEACHING CLASSES

These classes are specifically aimed at students in MEd degree programmes training to be English language teachers.

<u>Code</u>	<u>Semster taught</u>	<u>Generic title</u>	<u>ECTS points</u>
