

# **HOW TO SIGN UP FOR LANGUAGE CLASSES WS 2020/21**

The classes you see in Porta for WS 2020/21 now represent what will actually be offered. There is a mix of a few face-to-face and hybrid classes, and numerous digital-only classes, due to the COVID-19 pandemic and the resultant hygiene and safety rules. The labels tell you the teaching format, and the “Details” descriptions give more information on what will be required of you in terms of attendance/participation. See the screenshots below for tips on how to find the course descriptions.

**The main registration period for *Anglistik* language classes for WS 2020/21 will be 7<sup>th</sup> – 14<sup>th</sup> October 2020!**

**After 14<sup>th</sup> October:** Places will be allocated using an automated process. You will then see in Porta whether you have been allocated a place in the class(es) that you chose. Only the status ‘zugelassen’ (‘ZU’) means that you have a place. You **MUST** attend the first lesson(s) in order to keep your place; if you miss that lesson and do not contact your teacher, you will be deleted from the list and lose your place.

**23<sup>rd</sup> – 28<sup>th</sup> October:** You have a further chance to sign up for classes. Students using this later registration period to sign up for the first time have lower chances of getting a place in the group/class that is their first priority. If, after 29<sup>th</sup> October, you do not have a place in all the LANG classes you need to take, you should immediately email the member of the *Sprachpraxis* team who is responsible for the class(es) in question (not the class teacher! See below).

We endeavour to provide high quality learning environments for all our students by offering an appropriate number of groups of each class and by balancing participant numbers across these groups. In order to make the best decisions about groups and participant numbers, we need reliable data on how many students need to take each class – which we can only get if students use the first registration period to sign up. Please register for classes before 14<sup>th</sup> October!

Note that Bachelor’s students will not be given priority in Master’s-level language classes. If you are not yet enrolled as a Master’s student (i.e. not even ‘doppelt eingeschrieben’), we ask that you wait until the later registration phase to enquire about the possibility of joining Master’s-level classes and do not try to sign up for them during the main registration period. We retain the right to delete registrations of Bachelor’s students for Master’s-level classes.

If you need to change your registrations, for example due to clashes in your timetable, please use the second registration phase. If you have issues after 28<sup>th</sup> October, email the person responsible (see below) and send your timetable as evidence to request to move from your allocated class. Do this as soon as possible after you become aware of the need to change.

**Classes will start on 2<sup>nd</sup> November 2020. Once you are registered for classes, keep an eye on StudIP and your e-mails for information about week 1’s lessons.**

**The most important thing is to sign up for classes as early as possible!**

## Extra Information WS 2020/21

1) Classes that are not labelled as “hybrid” or “digital” will be taking place face-to-face. For these classes, keep in mind that there is a maximum capacity for rooms. This means being added to a full class will not be possible. Showing up on the first day of class without being registered or contacting the relevant instructor beforehand is not acceptable.

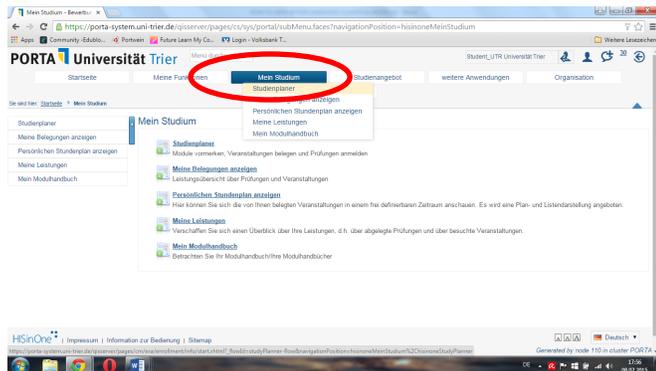

2) For “hybrid” classes, students will be split into sub-groups and these sub-groups will rotate weeks in the classroom. Some students will need to show up for their classroom lesson in the first week of teaching, others not until a later week. This also means that you cannot be added by just showing up for class, and it will be problematic to add students to classes after the sub-groups have been arranged. You will need to check information on StudIP/via e-mail to find out when your first week in the classroom is.

3) For “digital” classes, information will be up on StudIP about requirements. Make sure you know what first week requirements there are. Many classes will have a live online lesson in week one, which you need to attend. So make sure you register using the phases on PORTA and look for information about how to join the online lessons.

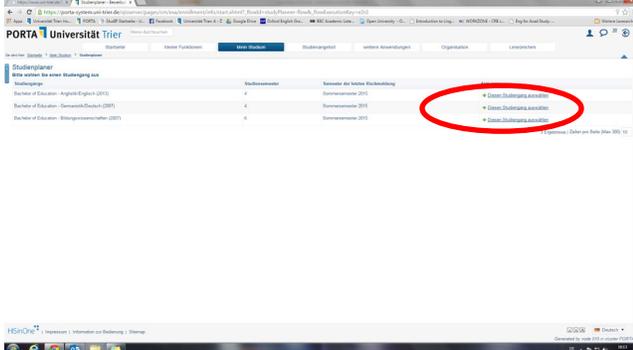

In general, remember to ask your instructor if you have questions or let them know about any concerns you may have, especially about hybrid or digital classes.
