Evaluation results

The following of my classes at **Carnegie Mellon University** and **University of Zürich** have been evaluated:

- „Banking: Structured Products“: 5.2 (of 6)
- „Advanced Microeconomics“: 5.2 bzw. 5.1 (of 6)
- „Microeconomics II“: 4.1 (of 6)
- „Algebraic Topology“: 5.0 (of 5)
- „Topics in Applied Mathematics – Game Theory“: 3.9 (of 5)

At the **University of Trier** there are unfortunately no regular evaluations and only few students take part on the occasional evaluations. Only in the winter term 2017/18 I got a more or less complete evaluation. In the main categories „Teaching content and competences“ I obtained 4,6 points (of 6) and in „Learning environment: contribution of the teacher“ 4,4 points.

The „Children University“ at the University of Trier is evaluated completely. My workshops on game theory were evaluated with the grades 1.4 and 1.3, respectively (on the usual German scale from 6 to 1, where 1 corresponds to “very good”).

More details I can provide on demand.
