Quantitative Finance Symposium

QuattroPole++

Trier University, 4th of April, 2017

Dear fellow researchers, Dear students,

we cordially invite you to the third Quantitative Finance Symposium "QuattroPole++" to Trier University, 4th of April, 2017.

This time, we have two sessions: a Math Finance and an Empirical Finance session. Each session will start with a lecture after which PhD students and postdocs from all participating universities will have the opportunity to present their current research, even if it is still "work in progress".

If you want to present your work, please send title and abstract of your paper. The complete paper does *not* have to be ready for the symposium. The program of the symposium will be made available 20th of March on the webpage http://QFQP.uni-trier.de.

We hope to welcome all of you in Trier!

Sincerely,

Prof. Marc Oliver Rieger, mrieger@uni-trier.de
Prof. Frank Thomas Seifried, seifried@uni-trier.de

Tentative program:

10:30h	Lecture by Prof. Jang Schiltz, Luxembourg School of Finance on Mathematical Finance (precise topic to be announced)
12:00h	Presentations by young researchers on Mathematical Finance
13:00h	Lunch break
14:00h	Lecture by Prof. Michael Massmann, WHU on Econometrics ("Cointegration in Finance")
15:30h	Presentations by young researchers on Empirical Finance

Important dates:

15th of March:	Deadline for abstract submission to thieme-trapp@uni-trier.de
20th of March:	Announcement of symposium program on http://QFQP.uni-trier.de
31st of March:	Registration for participation to thieme-trapp@uni-trier.de.
4th of April:	Symposium at Trier University, room **E51**
