Quantitative Finance Symposium

QuattroPole++

Trier University, 13 October, 2015

Dear fellow researchers, Dear students,

we cordially invite you to the first Quantitative Finance Symposium "QuattroPole++" at Trier University, October 13th, 2015.

We hope that we all will have a good start into the collaboration of the six universities of the region to foster the exchange of knowledge between researchers and PhD students and to initiate joint research projects.

The first meeting will consist of four lectures. They will introduce a broad variety of research topics and methodologies in finance.

We hope to welcome all of you – in particular many PhD students – in Trier!

Sincerely,

Prof. Marc Oliver Rieger, mrieger@uni-trier.de
Prof. Frank Thomas Seifried, seifried@uni-trier.de
