

## Job Vacancy Graduate Assistant (m/w/d) with Bachelor's Degree Department of Economic and Social Statistics

The **Department of Economic and Social Statistics (Prof. Dr. Münnich)** seeks to hire a graduate assistant with a Bachelor's degree for the project *Gesundheitsatlas* (Health Atlas), which is funded by the Scientific Institute of the German Public Health Insurance Company (WIdO). The job is scheduled to start at **01.02.2021**. In general, we are interested in a long-term employment.

### What we expect from you:

- You have a (very) good Bachelor's degree in one of the subsequent study programs: Data Science, Computer Science, Mathematics, Statistics, Economics, or similar.
- You have advanced knowledge in Statistics, Regression Analysis, and Statistical Modelling, which you can proof with (very) good grades in your corresponding Bachelor courses.
- You have advanced programming skills with the statistical software R.
- You have a high learning motivation with regards statistical theory, especially methods of complex multivariate analysis.
- You have a general interest in medical and epidemiological topics.
- You are an open-minded person that has responsible working ethics.

### What we offer:

- We offer a challenging and versatile task within a high-profile project in collaboration with a very renowned research institute.
- We offer comprehensive insights into state-of-the-art medical research using a data basis that is unique in Germany.

Please send your **application with common documents** (letter of motivation, Bachelor's certificate, current overview of grades and CV) until **10.01.2021** to Prof. Dr. Ralf Münnich ([muennich@uni-trier.de](mailto:muennich@uni-trier.de)) and Dr. Joscha Krause ([krause@uni-trier.de](mailto:krause@uni-trier.de)).
