# List of Tables

1	A1a1 Share of information and communication technology (ICT) sector value-added out of total business sector value added . . . . .	3
2	A1a2 Share of information and communication technology (ICT) employment out of total business employment . . . . .	4
3	A1a3 Investment in information and communication technology (ICT) as a percentage of gross domestic product (GDP) . . . . .	5
4	A1a4 Number of patent applications to the European Patent Office (EPO) in information and communication technology (ICT) patent classes - (priority year) per million population . . . . .	6
5	A1a5 Number of patents granted at the United States Patent and Trademark Office (USPTO) in information and communication technology (ICT) patent classes - (priority year) per million population . . . . .	7
6	A1b1 Businesses receiving orders over the Internet (all enterprises) . . . . .	8
7	A1b2 Businesses receiving orders over the Internet (small and medium enterprises SMEs) . . . . .	9
8	A1b3 Businesses ordering over the Internet (all enterprises) . . . . .	10
9	A1b4 Businesses ordering over the Internet (small and medium enterprises SMEs) . . . . .	11
10	A1b5 Percentage of firms total turnover from e-commerce . . . . .	12
11	A1b6 Share of firms with Internet access (Nomenclature générale des activités économiques dans les Communautés Européennes - NACE) . . . . .	13
12	A1b7 Share of firms with website or homepage (Nomenclature générale des activités économiques dans les Communautés Européennes - NACE) . . . . .	14
13	A1c1 Percentage of individuals making any use of the internet (by age) . .	15
14	A1c2 Percentage of individuals using the internet to buy or sell goods and services . . . . .	16
15	A1c3 Percentage of individuals using the internet for banking . . . . .	17
16	A1c4 Broadband penetration rate (number of broadband lines per 100 population) . . . . .	18

17	A1c5 Percentage of households with broadband access . . . . .	19
18	A1d1 E-gov availability . . . . .	20
19	A1d2 Percentage of individuals who use the internet to interact with public authorities . . . . .	21
20	A1d3 Percentage of firms who use the internet to interact with public authorities . . . . .	22
21	A2a1 Pisa mathematical literacy of 15 year olds . . . . .	23
22	A2a2 Pisa reading literacy of 15 year olds . . . . .	24
23	A2a3 Youth education attainment level . . . . .	25
24	A2a4 New PhDs per thousand population aged 25-34 . . . . .	26
25	A2a5 Percentage of working age population (15-64) with a tertiary education (International Standard Classification of Education (ISCED) 5 and above) . . . . .	27
26	A2a6 Percentage of adult population (25-64) with a tertiary education (International Standard Classification of Education (ISCED) 5 and above) . . . . .	28
27	A2a7 Percentage of adult population (25-64) with an earned doctorate degree (International Standard Classification of Education (ISCED) 6) . . . . .	29
28	A2b1 Total human resource in science and technology (HRST) as a percentage of the working age population (15-64) . . . . .	30
29	A2b2 Researchers per thousand workers . . . . .	31
30	A2b3 Total researchers per thousand labour force in full-time equivalent (FTE) . . . . .	32
31	A2b4 Total researchers in full-time equivalent (FTE) - compound annual growth rate . . . . .	33
32	A2b5 All tertiary science and engineering graduates per 1000 population aged 20-29 . . . . .	34
33	A2c1 Training enterprises as share of total by the Nomenclature générale des activités économiques dans les Communautés Européennes (NACE) . . . . .	35
34	A2c2 Average hours employed persons spend in training . . . . .	36
35	A2c3 Participation in life long learning per working age population (25-64) . . . . .	37
36	A2d1 Social trust . . . . .	38
37	A2d2 Percentage of employed in creative occupations . . . . .	39
38	A2e1 Job to job mobility by the nomenclature générale des activités économiques dans les Communautés Européennes (NACE) . . . . .	40

39	A3a1 Gross domestic expenditure on research and experimental development (GERD) to gross domestic product (GDP) . . . . .	41
40	A3a2 Gross domestic expenditure on research and experimental development (GERD) - Compound annual growth rate (constant prices) . . . . .	42
41	A3a3 Gross domestic expenditure on research and experimental development (GERD) per capita population (current purchasing power parities (PPP) \$) . . . . .	43
42	A3a4 Estimated civil gross domestic expenditure on research and experimental development (GERD) as a percentage of gross domestic product (GDP) . . . . .	44
43	A3a5 Government expenditure on research and experimental development (GOVERD) as a percentage of gross domestic product (GDP) . . . . .	45
44	A3a6 Higher education expenditure on research and experimental development (HERD) as a percentage of gross domestic product (GDP) . . . . .	46
45	A3a7 Government budget appropriations or outlays for research and experimental development by socio-economic objectives (GBAORD) as a percentage of gross domestic product (GDP) . . . . .	47
46	A3a8 Business expenditures on research and experimental development (BERD) as a percentage of gross domestic product (GDP) . . . . .	48
47	A3a9 Business expenditures on research and experimental development (BERD) - compound annual growth rate (constant prices) . . . . .	49
48	A3a10 Business expenditures on research and experimental development (BERD) as a percentage of value added in industry . . . . .	50
49	A3a11 Business expenditures on research and experimental development (BERD) to gross domestic expenditure on research and experimental development (GERD) . . . . .	51
50	A3a12 Percentage of Business expenditures on research and experimental development (BERD) performed in service industries . . . . .	52
51	A3b1 European Patent Office (EPO) patent applications by priority year per million population . . . . .	53
52	A3b2 European Patent Office (EPO) high tech patent applications by priority year per million population . . . . .	54
53	A3b3 United States Patent and Trademark Office (USPTO) patents grants per million population . . . . .	55
54	A3b4 United States Patent and Trademark Office (USPTO) high tech patent grants per million population . . . . .	56
55	A3b5 Triadic patent families by priority year per million population . . . . .	57
56	A3c1 Scientific publications per million inhabitants . . . . .	58

57	A3c2 Average citations per publication . . . . .	59
58	A3d1 Share of all firms reporting public research with universities as a high value information source . . . . .	60
59	A3d2 Share of all firms reporting public research with institutes as a high value information source . . . . .	61
60	A3d3 Share of all firms reporting public research with universities as a cooperation partner . . . . .	62
61	A3d4 Share of all firms reporting public research with institutes as a cooperation partner . . . . .	63
62	A3d5 Share of small and medium enterprises (SMEs) collaborating on innovation . . . . .	64
63	A3e1 High tech exports to total exports . . . . .	65
64	A4a1 Enterprise churn . . . . .	66
65	A4a2 Firm entries . . . . .	67
66	A4a3 Firm exits . . . . .	68
67	A4b1 Youth share of population (percentage of population between 15 and 29 inclusive) . . . . .	69
68	A4b2 Percent over 65 that use the internet regularly . . . . .	70
69	A4b3 Cross fixed capital formation (GFCF) as a percentage of gross domestic product (GDP) . . . . .	71
70	A4b4 Percent of innovative and non-innovative firms that give a high importance to lack of demand as a barrier to innovation . . . . .	72
71	A4b5 Per capita gross domestic product (GDP) . . . . .	73
72	A4b6 Government procurement of advanced technology products . . . . .	74
73	A4b7 Firm level technology absorption . . . . .	75
74	A4c1 Early-stage venture capital as a percent of gross domestic product (GDP) . . . . .	76
75	A4d1 Share of firms introducing new-to-market products . . . . .	77
76	A4d2 Share of total sales from new-to-market products . . . . .	78
77	A4d3 Share of firms introducing new-to-firm products . . . . .	79
78	A4d4 Share of total sales from new-to-firm products . . . . .	80
79	A4d5 Community design registrations per million population . . . . .	81
80	A4e1 Percentage of small and medium enterprises (SMEs) reporting non technological change . . . . .	82

81	B1a1 Gross domestic product per capita in purchasing power standards (PPS) . . . . .	83
82	B1a2 Real gross domestic product (GDP) growth rate . . . . .	84
83	B1b1 Labour productivity per hour worked . . . . .	85
84	B1b2 Labour productivity per person employed . . . . .	86
85	B1b3 Gross fixed capital formation - current prices - millions of Euro - seasonally adjusted as a percentage of gross domestic product (GDP) . . .	87
86	B1c1 Total employment growth . . . . .	88
87	B1c2 Total employment rate . . . . .	89
88	B2a1 Green house gas emissions per capita . . . . .	90
89	B2a2 Energy intensity of the economy . . . . .	91
90	B2a3 Amount of waste generated . . . . .	92
91	B2a4 Share of renewable energy . . . . .	93
92	B2a5 Air transport . . . . .	94
93	B2b1 Employment rate of older workers . . . . .	95
94	B2b2 Long term unemployment rate . . . . .	96
95	B2b3 Inequality of income distribution . . . . .	97
96	B2b4 At risk of poverty rate before social transfers . . . . .	98
97	B2b5 Unadjusted gender pay gap . . . . .	99
98	B2b6 Total unemployment rate . . . . .	100
99	B2b7 Youth unemployment - unemployment of those under age 25 . . . . .	101
100	B2c1 Life expectancy at birth . . . . .	102
101	B2c2 Hampered in daily activities because of chronic conditions . . . . .	103
102	B2c3 Happiness scale . . . . .	104
103	B2c4 Serious accidents at work . . . . .	105
104	B2c5 Share of employed population in shift work . . . . .	106
105	B2c6 Share of employed population working at night . . . . .	107
106	B2c7 Rooms per person . . . . .	108
107	C1a1 Trade to gross domestic product (GDP) ratio . . . . .	109
108	C1a2 Foreign direct investment (FDI) intensity . . . . .	110
109	C1a3 Direct inward investment flows as percentage of gross domestic product (GDP) . . . . .	111

110	C1b1 Research and experimental development spending of affiliates as a percentage of total business expenditure on research and experimental development (BERD) . . . . .	112
111	C1b2 Co-patenting with foreign inventors . . . . .	113
112	C1b3 International scientific collaboration . . . . .	114
113	C1b4 Technology balance of payments (TBP) as a percentage of gross expenditure on research and experimental development (GERD) . . . . .	115
114	C1b5 Surplus of technology balance of payments (TBP) receipts over payments as a share of gross domestic product (GDP) . . . . .	116
115	C1b6 Share of research and experimental development (R&D) funded from abroad . . . . .	117
116	C1b7 Co authorship share on international sciencenc and engeneering (S&E) articles, by country . . . . .	118
117	C1c1 Share of total turnover from affiliates under foreign control . . . . .	119
118	C1c2 Inward and outward foreign direct investment (FDI) . . . . .	120
119	C1d1 Non-national workers as a share of the total workforce . . . . .	121
120	C1d2 Annual net immigration as a percentage of the total population . . . . .	122
121	C1d3 Number of foreign students (non-EU) in tertiary education International Standard Classification of Education (ISCED 5) as a percentage of all tertiary education International Standard Classification of Education (ISCED 5) . . . . .	123
122	C1d4 Number of foreign students (EU) in tertiary education International Standard Classification of Education (ISCED 5) as a percentage of all tertiary education International Standard Classification of Education (ISCED 5) . . . . .	124
123	C1d5 Foreign PhD students International Standard Classification of Education (ISCED 6) as a percentage of total PhD enrolment . . . . .	125
124	C1d6 Annual mobility of human resource in science and technology (HRST) . . . . .	126
125	C1d7 Plans of European graduates from U.S. universities . . . . .	127

## 1 Introduction

This report provides data for selected indicators of a Knowledge Based Economy (KBE) for up to 25 EU countries plus the United States and Japan. The selected indicators capture the five main drivers of a KBE plus economic outcomes and social performance. The five drivers are:

1. Production and diffusion of information and communication technologies (ICT)
2. Human resources, skills and creativity
3. Knowledge production and diffusion
4. Innovation, entrepreneurship and creative destruction
5. Organisational innovation

As there are very few internationally comparable indicators for organizational innovation, they are grouped in section 4 under innovation indicators.

Where available, indicators are provided for four years: 2001 to 2004 inclusive.

The selection of KBE indicators in this document represents a conservative view of a KBE. This partly reflects data availability, both across countries and over time. For example, there is an overemphasis on traditional indicators of R&D, patents and human resources, due to the fact that these indicators have been collected for several years or more in most EU countries. A companion KEI document (WP4.4, Summary Report on the Way Forward: Innovative Use of KBE Indicators) includes suggestions for indicators that are not currently available but which would improve our understanding of a KBE.

## 2 A1 Production and diffusion of information and communication technology (ICT)

### 2.1 A1a Economic impact of information and communication technology (ICT) sector
