Composite Indicators:
Theory, Methodology and Applications

Overview

In the context of the Sixth Framework Programme of the European Commission the project KEI (Knowledge Economy Indicators: Development of Innovative and Reliable Indicator Systems) started on September 2004. The KEI project is part of priority 8 of the policy oriented research under the Framework Programme.

This workshop, the fifth in the KEI workshop series, aims at providing a forum for presenting and discussing recent developments in the construction, interpretation and application of composite indicators.

This workshop will take place on November 8th and 9th, 2007, at the Foundation Universitaire, Club Universitaire, Salle des Conférences A, Rue d'Egmont 11, 1000 Bruxelles, Belgique.
