

PORTA LV 1685 4003/4005/4006
Kolloquium zur Projektstudie / Bachelor- und Masterarbeit
SS 2020 - Heinemann/Drüe/Willmes

[digital]

Datum	ReferentIn	Thema
30.04.	Günther Heineman	Assessment of regional climate model simulations (CCLM) of the katabatic boundary layer structure over Greenland
07.05.	Mike Michels	SODAR Baranov
14.05.	Sascha Willmes	The MOSAiC drift from a remote sensing perspective
28.05.	Rolf Zentek	CCLM: Climate of the Weddell Sea (Antarctica)
04.06.	Felicitas Paixao	Seasonal forecasts for the European summer
18.06.	Jana Ney	Potential of a low-cost PM sensor network in the city of Trier
25.06.	Christian Bär	High-resolution model study of the impact of atmospheric forcing on the Larsen ice shelf
02.07.		
09.07.		
16.07.	Andreas Preußner	MOSAIC Leg 3 – The people, the science, logistics & more

Die Vortragsliste wird laufend aktualisiert. **Stand 26. Mai 2020.**
