

# Accommodations in Trier

(Stand: July/2024)

## 1-) Dormitories of Student Services of the University of Trier

*The Student Services of the University of Trier are in charge of a number of dormitories throughout the city. Mostly there are single rooms, few double apartments. All dorms are in close proximity to the university and some of them the city center (max. 15 min. by bus.)*

*Studiwerk has a waiting list! After you have applied, it is usually not possible to get a room offer immediately; you will be put on the waiting list in the first place. Depending on your room preference and dormitory location (single room or doublet, etc.), the waiting time may vary!*

## Private Dormitories

In addition to the accommodations offered by Studiwerk, there are various private companies and institutions in Trier that offer accommodations. You can find some of these providers below. These dormitories are managed independently and have nothing to do with the university. For this reason, we recommend that you inform yourself in detail about the dormitories and the contents of the contract and only then sign the rental contract!
