

The Department of Nursing Science at Trier University, Germany, seeks to fill the position of a

W2-level professorship in Behavioural Medicine and Principles of Human Biology for the Health Sciences (m/f/d)

The Department of Nursing Science at Trier University, Germany, invites applications for the position of a Professor of **Behavioural Medicine and Principles of Human Biology for the Health Sciences** (W2-level professorship). The successful candidate will represent the field of behavioural medicine and associated areas of human biology in research and teaching at the Bachelor level (Clinical Nursing) and Master level (Interprofessional Healthcare). This professorship aims at strengthening the specialty of Behavioural Medicine for somatic diseases in teaching and research.

The successful candidate will be an internationally recognised colleague who is experienced in attracting extramural research funding and conducting research in clinical healthcare settings (e.g., primary or secondary care). In addition, the candidate will be expected to complement existing research fields of the department.

An interest in interdisciplinary collaboration with other health-related disciplines at Trier University is highly desirable, in addition to expertise in at least one of the following areas: interaction soma - psyche, neuropsychology, or quantitative research methods. Applications from all social and behavioural science disciplines are welcome!

The official tasks result from the Higher Education Act of Rhineland-Palatinate (§ 48 HochSchG – Higher Education Act). Applicants must meet the general requirements according to public services law and the Higher Education Act of Rhineland-Palatinate (§ 49 HochSchG – Higher Education Act), especially regarding didactic qualification and exceptional academic ability and achievements, equivalent to a postdoctoral lecture qualification (e.g., Habilitation). We expect the ability to teach in German.

The State of Rhineland-Palatinate and Trier University are committed to intensive personal mentoring for students and, therefore, expect strong presence of teaching staff at the University. Trier University aims to increase the quota of women in research and teaching, and encourages female academics to apply. Disabled candidates with appropriate qualifications will be given priority.

Applicants are asked to submit the standard documents [motivation letter, curriculum vitae, list of publications, details on acquired third-party grants, list of courses, teaching evaluations, copies of certificates, open science statement] in a pdf file with reference to the job posting to the Dean of Faculty I of Trier University, Prof. Dr. Conny Antoni, 54286 Trier, dekanfb1@uni-trier.de, by 25.02.2021.
