

## Free Electives of the Bachelor's Programmes – Modules Offered in the English

Version: 13.03.2025

*Please note that the following list merely intends to provide an overview of module structures and contents. Only the officially published examination regulations in their respective applicable form are legally binding.*

### Competence Clusters and Associated Fields of Study

#### Literature & Languages

English Studies

German Language Classes

#### Economics & Law

Economics

#### Interdisciplinary competencies

European Studies (in cooperation with UGR)

### A Helpful Guide to Choosing the Right Electives

- Most programmes allow you to choose electives from all competence clusters. In some, however, choice is limited to specific competence clusters. To find out what your options are, please refer to the official (German-language) [programme documentation](#) of your course of study.
- Within the competence areas that your programme allows you to select, you are free to choose any elective based on your interests and ambitions: you may choose to attend modules from one single subject area only - or decide to dive into different fields, from literature to computer science to economics. Please be aware that some modules may require previous knowledge and skills in the field.
- You may want to attend introductory modules that are open to all for enrolment first. If you already possess the appropriate prior knowledge, you may, of course, directly enrol in more advanced modules. If you plan to enrol in modules offered by the university's language center, you will be required either to have successfully completed the relevant preceding module or to demonstrate your language proficiency through a placement test. For further information, please visit the [language center's website](#).
- If you have any questions on the individual modules, please contact the respective module convenor given below.
- For more tips and hints, explore our [FAQs](#).

## ENGLISH STUDIES

Module code	Module title	Sem.	CP	Course Type	Hours per week	Course title	Assessment type	Module convenor	Annotations
<b>Modules recommended for more advanced learners</b>									
The following modules require prior knowledge of the subject. They particularly address students who are enrolled in programmes that allow them take more than 10 CP in free elective modules, who have already successfully completed the introductory modules, or who have acquired the necessary prerequisites elsewhere.
